Radarsign™ Traffic-Calming Solutions Expand into Four More States: Ohio, Pennsylvania, Kentucky, and West Virginia

M. H. Corbin Named Regional Distributor of World's Only Armored Driver Feedback Signs

ATLANTA, Feb. 17, 2010—Radarsign™—the manufacturer of the world's first and only armored driver feedback signs—is expanding into the Northeast through an operating agreement with Plain City, Ohio-based M. H. Corbin, Inc. The business partnership gives M. H. Corbin rights of distribution for Radarsign's traffic-calming solutions.

"Other driver feedback signs were flimsy," said Mack Corbin, Vice President of M. H. Corbin of his comparisons of radar signs. "There is a substantial difference in the production quality of Radarsign's Armored products, which are weather resistant to survive extreme conditions like snow, ice and salt."

M. H. Corbin clients—including private entities, local governments and state agencies—are already using Radarsign products to successfully calm traffic. *"The Ohio DOT is using a Radarsign TC-1000 to warn motorists of their speed as they exit a tunnel and approach a sharp curve,"* said Corbin. The before-and-after results captured by the signs' data-collection software as well as driver testimonials validate the signs' successes. *"I have used Radarsign's portable TC-500 in my own neighborhood,"* he continues. *"The responses I receive from neighbors are very consistent: 'I didn't realize how fast I was going,' or 'I was on the phone and not paying attention to my speed.' The sign has done a great job of reducing speeds at the main entrance of the neighborhood."*

"We know that M. H. Corbin has a great reputation for customer care, a business ethic that is important to us," said Charlie Robeson, Director of Sales and Marketing at Radarsign. *"We believe that the Radarsign driver feedback signs will be the answer many of M. H. Corbin's customers have been looking for."*

About M. H. Corbin

Ohio-based M. H. Corbin has distributed products used by drivers traveling the highways in the United States since 1986. Working primarily in Ohio, Pennsylvania, Kentucky, West Virginia and New York, M. H. Corbin represents some of the finest manufacturers of highway safety products from more than 20 companies.

About Radarsign: In 2004, Atlanta-based Radarsign™ established new industry standards for traffic-calming solutions with the debut of the world's only **armored driver feedback signs, which are vandal, weather and bullet-resistant**. The industry's most durable radar signs are also the most ecological. Radarsign's MUTCD-compliant products—the industry's most energy-efficient—are made in the USA and utilize recycled aluminum, innovative LED refractor technology, minimal battery power and solar panels to deliver bright, easy-to-read feedback to drivers. Radarsign has been entrusted to provide safe and effective traffic-calming solutions for: municipalities, treasured national parks, children and families at schools and in neighborhoods, military bases that protect homeland security, and private and public development projects across the U.S., Canada and overseas.
