

## What our Law Enforcement customers are saying about us.....

*“The ease of hanging the TC-400 is so convenient. We purchased extra mounting brackets so that we can move the signs around quickly. They are so much easier to install than our old speed trailer.”*

- April Alterio, Administrative Services Coordinator – Vinton Police Dept. – Vinton (VA), September 2016

*“We chose Radarsign because we had purchased from them before and they had good service and good quality...The speeds have reduced tremendously and we have gotten really good feedback from our citizens. Really good feedback.”*

- Chief Jesse Patton, Locust Grove Police Department – Locust Grove (GA), May 2016

*“To address traffic complaints from the community, we wanted to see data to verify the speeding issues, including the times and speeds. From that information, we could determine the appropriate response and choose how we deployed our resources. The Radarsign speed sign is doing this for us.”*

- Lt. Paul Lenzmeier, Anoka County Sheriff's Department- Andover (MN), March 2016

*“The signs are working well. From my unmarked vehicle, I have watched as cars react to the sign. It has slowed them down dramatically.”*

- Chief Alex Collinge, City of Eureka Police Department – Eureka (IL), March 2016
