

Advanced Scheduler

The Advanced Scheduler is a date driven program that allows pre-programming your radar speed sign with multiple schedules, for months or years in advance. The Advanced Scheduler is especially useful for scheduling in School Zones or areas where events occur on a regular basis.

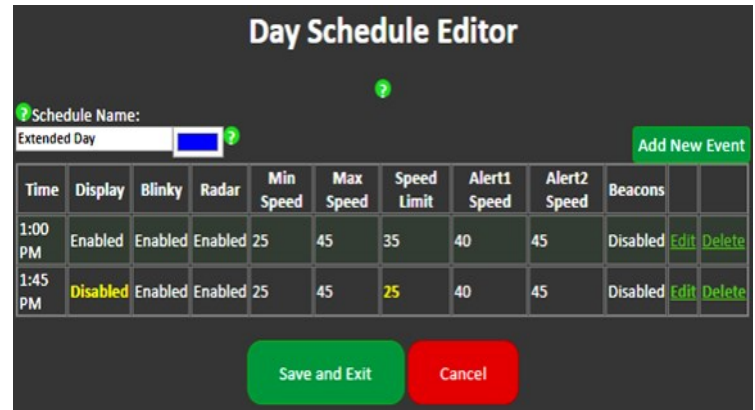

Features:

- Access radar speed sign via Wi-Fi up to 300 feet from sign | Allows local downloads to smart phone, tablet, or laptop
- Multiple year pre-program periods
 - Up to 24 schedules accepted
 - Up to 24 exception days allowed
- Indefinite retention of schedule in case of primary power failure or noncommunication
- Automatic daylight savings timer management
- One time charge | No recurring fee

Creating a Day Schedule

NOTE: the following has to be completed for EACH Day Schedule added to the calendar

- Add **Event(s)** to the **Day Schedule** including
 - start time
 - general settings for the radar speed sign
- Add the **Day Schedule** to days on the Calendar
- Each **Day Schedule** can be applied for days, weeks, or years in advance
